

CONGRESS AROUSED BY PACIFIST PROPAGANDA AT NAVAL PARLEY

ATTEMPTS TO
INFLUENCE U.S.
RESEATED

Hunt Source of Money That
Pays Expenses of Work
for Security Pact

Developments at the London naval conference today included:

1. British naval spokesman announced tonight progress was being made in negotiations with France over a consultative and security treaty.
2. The announcement cleared the atmosphere somewhat and relieved the tension which had prevailed from the moment of the Anglo-French impasse.
3. Japan's instructions to its delegates to accept the Anglo-American naval terms, which give the Japanese approximately 10 per cent of the American naval tonnage, reached London.
4. Tokyo announced it expected the acceptance to result in a three-power pact, second in the event of the five-power conference failed.
5. Prime Minister MacDonald told the House of Commons today that Great Britain did not intend any commitment beyond the terms of the League of Nations covenant and the Locarno treaty.

France had never asked her to go beyond them.

Washington, April 4 (UPI)—A congressional investigation into pacifist propaganda at the London naval conference, particularly efforts to promote American adherence to some sort of a European political pact, was being held on Capitol Hill today in the wake of the virtual collapse of the party.

It would be a companion piece to the famous Shearer investigation only with reverse English applied.

William B. Shearer, a big navy advocate, who was shown to be in the employ of American shipbuilders, was accused of working the Geneva conference of 1927. It was shown he propagated actively in favor of a strong American navy.

THE CAUSE OF FAILURE
The "big navy" propaganda at Geneva has been matched by the "little navy" propaganda at London, and there are a good many people in high places in Washington who believe the failure at London can be attributed to no small degree to the pernicious activities of these various pacifist organizations.

A number of American pacifist organizations sent representatives to London, and they are credited with originating most of the "pressure from home" in favor of American joining security pacts, consultative pacts and political agreements in Europe.

The voluminous cablegrams, some of them signed by as many as 100 prominent names, appealing for American "congregation" with Europe and the abandonment of the principle of parity with England, were sent in the activities of these organizations.

WHITE HOUSE DENIAL
Both at the State house and from American delegation headquarters in London the official announcement has been made in the past two weeks that all proposals for America's joining a political pact at London have come from outside organizations.

But the result of these negotiations to establish a belief among the European representatives to believe America's joining a political pact was strong in the United States.

Thus has the road of Secretary Stimson and his delegation, in seeking to avoid political entanglement at London, been rendered more difficult.

First Photos of Byrd Polar Expedition on Ice Pack Before Hop to Pole

Rear Admiral Richard E. Byrd, leader of the Polar expedition, now on his way home after the successful flight over South Pole.

Unloading on the ice pack for the drive toward the bottom of the world. The ships New York and Eleanor Bolling are shown as they appeared anchored to the edge of the ice pack over which the explorer traveled on his flight to the pole. One of the airplanes, crated, which Rear Admiral Byrd used on his exploration flights, and the dog teams are shown in the foreground of the picture. The party is now at Dundee, New Zealand.

Even the dogs come home. Although it is customary for explorers to leave their sledge teams behind, Rear Admiral Byrd will bring his canine heroes home. The Society for the Prevention of Cruelty to Animals is to honor him for his act of loyalty. (U. S. N. photos.)

Coolidge Buys \$40,000
Home at Northampton

Northampton, April 1 (UPI)—President Coolidge announced today that he had purchased "the Beeches," a handsome estate on an elevation at the edge of the Northampton Meadows with an unobstructed view of the Mount Tom and Mount Holyoke ranges. The new 16-room home will be in marked contrast to the modest two-room half of a duplex house on Massachusetts at which he has been "home" to them for nearly a quarter of a century.

Tariff Conference
in "Gentlemen's" Pact

Washington, April 1 (AP)—The House rules committee today agreed upon the plan to send the tariff bill in conference with the Senate, but made no mention of the understanding reached yesterday that the House would be given opportunity to vote on sugar, lumber, cement and shingles, which have been settled in conference.

RASKOB TO FACE
LOBBY GRILL
ON FRIDAY

Huston, G. O. P. Chief, Again Linked With the Muscle Shoals Bid Propaganda

Washington, April 1 (AP)—Chairman Cawley of the Senate lobby committee announced today that John J. Huston, chairman of the Democratic National Committee, would be called to testify next Friday.

Cawley today received a telegram from Raskob which said he would be able to appear at any time.

Summons of Raskob was asked by Senator Robinson, Republican, Indiana, to appear in connection with the Association Against the Spread of Americanism.

In his telegram Raskob called attention to testimony by Claudius Huston that he understood Raskob had contributed to the Association Against the Spread of Americanism.

The name of Claudius H. Huston, chairman of the Republican National Committee, was again brought into the lobby investigation of Muscle Shoals by Chester Cawley, chairman of the American Farm Bureau Federation.

GRAY'S HILL
Gray was questioned about a letter he wrote in which he said that John J. Huston, chairman of the Democratic National Committee, was to do in his position.

The letter suggested that Rep. Lester Hill of Alabama get W. E. Bell, president of the American Cyanamid Co., in a room alone and

Gray said the reference was intended to mean that Bell should modify the pressure clause in the contract for the American Cyanamid Co. proposal to lease Muscle Shoals.

Gray explained he had received the information from J. W. Worthington, chairman of the executive committee of the Tennessee River Improvement Association, which advocated acceptance of the bid of the American Cyanamid Co. for the shoals.

Gray previously testified his explanations also favored the Cyanamid company bid.

At the beginning of the committee investigation, Chairman Cawley made the assertion that Worthington was signing letters in an effort to evade questioning by the committee. Friends of Worthington denied this.

HUSTON GOT SKID
Huston, a former president of the Tennessee association, had been questioned at length by the committee. He testified he had collected \$36,000 from the Union Carbide for his association and had deposited it in a bank in his personal name.

Other witnesses testified there had been a shortage in the amount when the money was deposited and a part of the funds was used as margin for stock purchases.

Steadily afterwards, Huston told the committee that he had been unable to obtain records of the improvement association because of Worthington's illness.

He said that when the value was \$36,000, it was in the name of the association and was in the name of the association.

He said that when the value was \$36,000, it was in the name of the association and was in the name of the association.

NORRIS FIGHTS FOR MUSCLE SHOALS BILL

Washington, April 1 (AP).—The 105-year-old problem of what to do with the government's \$100,000,000 nitrogen and power plant at Muscle Shoals, Alabama, again confronted the Senate today with a sharp debate in progress.

The legislation of Senator Norris, Republican, Nebraska, for government plant operation, for facilities for experimentation came up under a previous agreement.

It is the most measure of science advanced in 10 years of investigation and legislation according to get through Congress. It was adopted two years ago but President Coolidge let it die by pocket veto.

Administration forces, generally opposed to government ownership and operation, were prepared today to oppose the Norris resolution but apparently there is no country proposal of a veto to private industry to be offered.

Norris was confident of the vote to put through his measure again but the outlook for it in the House is not so bright.

The debate offered opportunity for Senate discussion of the activities of Claudius Hutton, chairman of the Republican National Committee, in behalf of disposition of Muscle Shoals to private industry.

A report from the House committee on Hutton's financial relations with the Tennessee River Improvement Association in its activities for Muscle Shoals legislation is in progress.

WITHDRAW HIGH SCHOOL SUIT

Tuesday, April 1 (AP). A taxpayer's suit to restrain the city from waiving to anyone but the Jewish bidder the contract for a \$200,000 high school addition, was withdrawn this afternoon by Attorney Lowell Mayberry of Boston, counsel for the petitioners, shortly before Judge William S. Rowe at Boston was to sit as a master for the supreme court.

The termination of the case will be reported to Supreme Court Justice Crosby at Boston tomorrow.

It was said Mayberry discovered several signers to the petition were not legally qualified. Several others served notice of their intention to withdraw.

Had Paul stated where the nation was, you will find a lot of valuable property advertised every day in the real estate columns of the Evening American.

Lawrence Young Folk Fleeced by "April Fool" Dance Party

Lawrence, April 1.—April Fool came early to several scores of young men and women dancers at Oda Fellows' Hall, but instead of dancing in the newest times the dancers danced with rage.

It turned out that the dance for which they had purchased tickets was a dance only in some sense, productive imagination.

The dance was supposed to be by the Lincoln Club but investigation revealed that no such organization exists in Lawrence. The tickets set back each purchaser \$1, the producers reaping plenty for a nice spring sartorial suit.

Small Accounts are Welcome

NOT infrequently we are asked this question:

"You are a large bank. Will you be interested in my small account?"

The answer is obvious. A bank with 138,000 customers is vitally interested in small accounts.

A bank with twenty-two offices throughout the city provides convenient banking facilities for thousands of small depositors.

A bank which has served the Boston populace for 146 years has seen innumerable small accounts grow large.

When you open an account with this bank you are assured of an active interest in your affairs whether you make use of one or all of our services.

BOOTLEGGERS BLAMED FOR LOST LOVE

Chicago, April 1 (AP)—Bill for a revision of the National Prohibition Act, which would allow the sale of liquor to bootleggers, was introduced today in the House by Representative Charles McNary, D-Ind. McNary's bill would allow the sale of liquor to bootleggers, who have been blamed for the loss of many lives during the prohibition era. The bill also would allow the sale of liquor to bootleggers, who have been blamed for the loss of many lives during the prohibition era.

17 STATES WILL LOSE IN QUOTA OF CONGRESS

Washington, April 1 (AP)—Important changes in the membership of the House will automatically follow the 1930 decennial census, the taking of which begins tomorrow.

A reapportionment due to growth and shifting of population will be made for the first time in 20 years effective with the Congress elected in 1932.

The census bureau estimates 17 widely scattered states will lose 25 Congressmen and 11 states will gain by the same number. It is expected reorganization of the larger states will be increased, and as larger states are regarded as opposed to prohibition a careful watch is being kept for the effect on the liquor issue.

The bureau estimates the states that will gain are: Arizona, Connecticut, Florida, North Carolina, Oklahoma, and Washington, new ones; California six, Michigan four, Ohio five, and New Jersey and Texas two each.

"Exquisite Skin most Important Thing in making a Girl Charming,"

says Lewis Milestone, Director at the great Paramount Studios

SOFT, smooth skin! What an appeal it has for people! The motion picture director, who picks the girls who will win the hearts of millions of people, knows this only too well.

As Lewis Milestone says: "Smooth, exquisite skin is more captivating than anything else about a girl"—and sums up the experience of 45 prominent Hollywood directors.

"Lovely skin is the first essential for screen stardom," he goes on to say. "It takes velvety, super-smooth skin to defy the merciless close-up lights—no make-up can fake it. Beautiful skin is the treasured possession of every successful screen star."

And now the talkies have multiplied the close-up—the cruellest test any skin can meet! So that it is more than ever essential that a screen star's skin show *flawlessly* smooth under the glare from the giant incandescent lights.

Of the 521 important actresses in Hollywood, including all stars, 511 use Lux Toilet Soap. The Broadway stage stars, who have long used it, are more than ever grateful to its gentle care of their skin since so many of them are now appearing in sound pictures. And in the European capitals, the screen stars are equally enthusiastic about this daintily fragrant white soap.

9 out of 10 lovely stars use it—
In Hollywood—on Broadway—in Europe

You can keep your skin lovely just as Mary Brian and these other famous Paramount stars keep theirs. By using Lux Toilet Soap.

You'll be delighted, too, to find how very generously it lathers, even in the hardest water. Use it for the bath—and for the shampoo, too. Order several cakes—today.

RUTH CHATTERTON, lovely Paramount star, has perfect skin under the intense close-up lights—Lux Toilet Soap keeps her skin smooth as flower petals.

BACLANOVA, Paramount's alluringly attractive star, has the fairest of fair complexions. She says: "Lux Toilet Soap keeps my skin so wonderfully smooth."

FAY WRAY, appealingly beautiful Paramount star, says: "Lux Toilet Soap helps give the skin a wonderful smoothness."

NANCY CARROLL, Paramount star, says: "It is a great help in keeping the skin in perfect condition."

MARY BRIAN, exquisite Paramount star, in the bathroom designed by a well-known New York artist and built for her in Hollywood. She says: "A star just must have a smooth skin, and I find Lux Toilet Soap so very pleasing and soothing!"

COUPLE START LONG CRUISE

Portland, Me., April 1 (AP)—The 16-foot outboard-powered Ensign, with Les Morrison, New York automobile racing driver, and Mrs. Morrison aboard, started today on her 640-mile water trip to Portland, Ore.

It was the second start for the little craft, the first ending last Saturday when the boat crashed into Portland breakwater.

The Portland Yacht Club viewed and was the lone watcher to bid the couple farewell as the boat chugged away from the club float at 7 o'clock this morning. The coast guard station at the tip of Cape Elizabeth reported the boat's passing at 8:20, backing a fairly strong headwind. Morrison hoped to make Boston by night and allowed 10 hours for the trip.

Mothers... Watch Children's COLDS

COMMON head colds often "arise" in a child and clear when they may become dangerous. Don't take a chance—a Muterole Mixture every hour for five hours.

Children's Muterole is just good old Muterole, you have known so long, in milder form. Working like the original Muterole, this famous blend of oil of mustard, camphor, menthol and other ingredients brings relief naturally. It penetrates and stimulates blood circulation, helps to draw out infection and pain.

Keep full strength Muterole on hand, for adults and the mother's Children's Muterole for little ones. All druggists.

Could Write a Book About It

"Nine years ago after my little girl was born dead, I took Lydia E. Pinkham's Vegetable Compound for about four months. The next year I became the mother of a fine 11-pound baby boy. After he was born, I kept on with the medicine to build me up. Four months ago I was the mother of a healthy and contented son after other troubles which I knew Lydia E. Pinkham's Vegetable Compound would relieve so I started taking it and now I feel fine again. Many of my friends could write a book on the good the Vegetable Compound has done them."—Mrs. W. Coleman, 908 Rogers Ave., St. Louis, Mo.

Puts New Life Into Dull, Tired, Faded Skin

Just as your complexion needs skin cream, so your hair needs scalp treatment. The face needs the cream to keep the pores of the skin clear and soft and to prevent the formation of wrinkles. The hair needs the cream to keep the scalp clear and soft and to prevent the formation of dandruff.

"There is nothing so truly good as a good scalp treatment. It keeps the scalp cool, and you will find scores of opportunities for profitable investment."

Daily Antique

No. 60

There is much local and historical interest in the beautiful chair shown today. Of great intrinsic beauty in itself, the chair has associations which make it a treasured relic.

The chair is of American Hepplewhite style, with shield back. The upper part of the back is carved with a small basket of fruit from which trail graceful berry vines. The curved splats are carved to suggest light acanthus leaves, and they converge to a small triangular point which is inscribed. The legs are straight and fluted.

This chair was once owned by Governor John Hancock and used by him in 1780. It passed on into the hands of Ebenezer Thayer who donated it to the Boston Museum of Fine Arts by Miss Madeline J. Dinwiddie in 1882. It has just been presented to the Boston Museum of Fine Arts by Miss Madeline J. Dinwiddie, a descendant, and will be placed on exhibition among the museum's fine collection of early American and Colonial furniture.

In connection with the Massachusetts Centenary Year, the Boston Evening American is publishing daily photographs of interesting antiques. Owners of genuine antiques, particularly of Colonial or early American origin or of historic association are invited to forward photographs and records of publication. If a photograph is not available, the American will send the owner a photograph of the antique, provided the owner lives in Greater Boston, address the "Antique Editor," 55 Winthrop St., Boston.

Doubts Importance of New Planet "X"

Paris, April 7 (AP).—The importance of Planet "X" discovered by the Lowell Observatory at Flagstaff, Arizona, was questioned today by Bernard Baile, assistant astronomer at the government observatory at Meudon.

M. Baile in a note presented to the Academy of Sciences reported he had observed the planet March 22, but estimated its diameter as only a little over 4,000 miles instead of the 20,000 he had estimated the American observation reported.

Eastman Called in Rail Inquiry

Washington, April 7 (AP).—In calling Commissioner Eastman of the Interstate Commerce Commission, as the first witness in the investigation of railroad holding companies, the House Interstate Commerce committee has assured itself the protection of the committee, contending by the commission will be investigated at the time.

Eastman is expected in his testimony Saturday to lay the foundation for months of inquiry into the actual ownership of the nation's carriers and legislation necessary to control them.

May we ask you to read these few short paragraphs?

IT is about time, in our opinion, that superlatives and extravagant statements in gasoline advertising gave way to hard facts and common sense.

It stands to reason that there cannot be *ten* "best" gasolines and motor oils on the market.

How is the motorist to decide which claim to accept? What proof shall he demand? Is any available?

So far as our own products are concerned, we are willing to stand on two things:

First—the personal test of driving under all road and weather conditions. In other words, *performance*.

Second—public opinion of the quality of our products. In other words, *reputation*.

If we can judge by what people say, and by the large and growing business we are privileged to receive, our company and our products inspire a certain feeling which perhaps we can call *confidence*.

Our progressive policies may be one reason for this. We were first to bring out a new-day high quality motor fuel ("no kerosene borderland"—1925). We were first in New England to offer an Ethyl gas (Colonial Ethyl—1926). And we were first to bring out a gasoline especially refined for local winter driving (Colonial Wintergas—1928).

Our stations and their service are almost certainly another reason. The type of attendants, the pride taken in trim appearance, the courtesy shown—all have played a part.

But first and foremost, probably, come the products themselves. Both in quality and in uniformity of this quality, they fully deserve the favor they have won.

It is therefore with complete assurance, both of the results you will get, and of the satisfaction you will feel, that we again recommend to your attention the foundation stone of our success—Colonial Gas.

What can be done with Life Insurance

(1) Building an Estate

The first step in building an estate is to determine the amount of life insurance needed. This can be done by consulting with a financial planner or insurance agent.

The second step is to choose the type of life insurance policy. There are several types of policies, each with its own advantages and disadvantages.

The third step is to shop for the best policy. This involves comparing quotes from different insurance companies and looking for the best value for the money.

The fourth step is to pay the premiums. This is a long-term commitment, so it is important to make sure you can afford the payments.

The fifth step is to review the policy regularly. Your needs and circumstances may change over time, so it is important to make sure your policy still meets your needs.

The sixth step is to make a will. This is an important document that outlines how your assets should be distributed after you die.

The seventh step is to name beneficiaries. This is the person or people who will receive the proceeds of your life insurance policy.

The eighth step is to keep the policy in force. This means paying the premiums on time and keeping the policy up to date.

The ninth step is to review the policy again. This is a good idea to make sure you are still getting the most out of your policy.

The tenth step is to make a final review. This is the last step in building an estate with life insurance.

The eleventh step is to make a final review. This is the last step in building an estate with life insurance.

The twelfth step is to make a final review. This is the last step in building an estate with life insurance.

5TH KILLING RESULTS IN ACTION

Death of Bride Under Wheels of 'L' Car Moves for Better Lighting

How 'Death Boulevard' Trapped Bride

Photo diagram shows how fifth victim of 'death boulevard' in West Roxbury was run down and killed. Mrs. Edith Finn, a three weeks' bride, standing with her sister, Mrs. John Finn, at the intersection of Washington Street and Washington Avenue. The car, a 1928 Ford, was driven by one of the Finn family. The car struck Mrs. Finn as she was crossing the street. The car was then driven away by the Finn family. The scene is dimly lit, suggesting a lack of proper street lighting.

What Dividend Record Shows for Quarter

Favorable Changes Offset by Unfavorable; Best Policy to Adopt

By B. C. FORBES

NEW YORK, April 1 The first quarter's dividend record for 137 companies with favorable and unfavorable features, the records compiled a century for this column show.

The total of 150 improved dividend disbursements compares with 142 a year ago. But no fewer than 137 companies either reduced or omitted dividends. Contrasted with only thirty in the first three months of last year and forty-four in both 1924 and 1927.

H. C. Earle

This table shows the form taken by the more generous dividends announced last quarter by industries of public utility and railway companies.

	Ind	P	17	12
Enter	155	5	1	
Initial	121	10		
Stock	65	4		
Increased	62	11		
Back	11	9		
Resumed	8	1		
Total	402	31		

A decrease is shown in the number of companies making initial payments. This suggests that more caution in inaugurating disbursements is being exercised this year than was exercised a year ago when business was booming.

It is interesting to note that favorable railway payments were announced last quarter, where-

The dividend action most eagerly awaited last month was that of the Alcoa directors. Many in Wall Street predicted a reduction in the regular 1½ per cent quarterly dividend in view of the sharp falling off in the buying of copper at the maintained price of 18 cents a pound. Reduction of the full rate was

NEW ENGLAND STORES CAN

Net income of First National Savings, Inc., for the fiscal year ended March 31, 1930, is estimated at \$4,800,000 by E. M. Hamlin & Co. in an analysis of this New England property chain, which is being distributed today. This increase in earnings is an increase of 45 per cent over 1929 and of 221 per cent over 1927.

With sales mounting well over the \$100,000,000 mark, says the company, "and plans to continue to surpass every industrial combination in New England, very few persons seem to grasp the gigantic development of the First National Stores, Inc."

"Since its formation, less than five years ago, the rise of this chain grocery store system has been nothing short of phenomenal. Its achievements in the New England

store, however, are still located in Massachusetts.
Investor Interest remains the chief point of concentration, while other points are Providence, Hartford and Bridgeport. Each store sells groceries, vegetables and meat. The increasing numbers are selling out. All retail sales are on a cash basis and no deliveries are made.
E. M. Hamilton & Co. points out that while the number of stores in operation have increased, the vol-

Weather Aid to Business

Washington, April 1 (AP)—American business has reached the turn in the north and is due for improvement, the Julius Klein, assistant secretary of commerce, declared today.

One serious obstacle which has prevented greater activity, especially in the process of the \$200,000,000 building program, has been the weather.

Material relief will result from an end of the cold weather, which will make possible the opening up of the Great Lakes traffic and the beginning of building on a substantial scale, Klein said.

Klein said that the government and private commercial bodies as well as business and industry are putting every pressure possible in the way of about recovery and the end is every indication of success.

Construction figures just available for March show an even more encouraging picture than a year ago, in spite of the intermittent weather, which has prevented launching many planned projects in the north, Klein said.

If you're one of the thousands of theatregoers who enjoy the talent of this winsome star, you'll want
